Ray,

Thanks for the quick reply. Yes, we can certainly do a conference call at that time. On our end, Van, Dennis and I will be on additional information today regarding the area near the Southeast Fault. I think this information coupled with the data we have is adequate to allow closure on the few questions remaining. I look forward talking to you and Phil.

p.s. UEC's borehole plugging reports are on a CD and I will express mail the CD this morning.

Ray,

As a follow up to the various clarifications that I sent up to the Region today re the pump test, I would like to extend an invitation for a telephone conference call on Tuesday to discuss any possible questions you may still have. On my end, the conference call will be with Dennis Fryar and me. Or, if you can arrange it, we would be please to meet with you in Austin at your convenience on Tuesday to review documents and answer any questions you may have. I hope you have a relaxing weekend. Take care.
